

Here are a few suggestions to help you get started:

**TRADE IN YOUR OLD BEDDING FOR LUXURY LINENS**

There is nothing like a luxury hotel bed. Yes, the mattress has a lot to do with it, but the linens are the icing on top. Most department and specialty stores carry "hotel bedding," but if you are looking for something tried and true you may want to consider Muse of Italy or Ann Gish.

**CHANGE YOUR LIGHTING**

Lamps are a wonderful way to accessorize your bedside. Lighting can also help to set the mood. Consider introducing distinctive lighting as a way to personalize your spaces. Candles are timeless and dimmers are inexpensive and easy to install.

**INTRODUCE A SIDE TABLE**

Side tables are a great complement to any room. They make perfect bedside tables, and can display flowers, lamps and

Wing Chair Bed

books. They also make excellent remote holders.

**ADD A TOUCH OF SOPHISTICATION**

An upholstered headboard will add instant sophistication to any bedroom.

These can be found at a number of different price points at most major furniture retailers. And accent pillows and throws are excellent for adding color and texture to a room, and they can provide additional comfort and cover in special places.
